General Information

Established in 1982, the Faculty of Food Science and Technology is an active faculty which is highly regarded as one of the best faculties at Universiti Putra Malaysia. The faculty depicts the foundations of the vision for the establishment of the university to fulfill the nation's needs in the field of food science, technology, manufacturing, management, marketing and service through teaching, research, and professional services. This vision has been systematically realized by academic and supporting faculty staff who are highly committed and frequently share ideas with scientists at academic and research institutions, industries, and clients.

The three main pillars of the faculty are the Department of Food Science, Department of Food Technology and the Department of Food Service and Management. All three departments have an integrated interactive working environment whereby a synergetic approach is adopted to contribute to excellence in the Faculty of Science and Technology.

The faculty offers four programs i.e. Bachelor of Food Science and Technology with Honours, Bachelor of Science in Food Studies with Honours, Bachelor of Science in Food Service Management with Honours and Bachelor of Science in Food Manufacturing Operations with Honours. The Bachelor of Food Science and Technology with Honours program emphasizes on overall training in the field of food

science and technology which include food chemistry, microbiology, processing, and engineering. Meanwhile, the Bachelor of Science in Food Studies with Honours program has a comprehensive curriculum designed to produce well-trained and professional graduates in the field of food processing, production, management, and marketing. The Bachelor of Science in Food Service Management with Honours program was established to produce wholesome professional graduates covering aspects of food science, culinary and gastronomy, service, management, and entrepreneurship and can conduct research and development in the field of food service management. The Bachelor of Food Manufacturing Operations with Honours program, on the other hand, will produce professionals who are knowledgeable and technically skilled in the field of food manufacturing operations as well as able to solve problems in the field of food manufacturing operations in an innovative, creative and ethical manner, and can communicate and demonstrate the ability to handle food manufacturing operations and entrepreneurship in the field ventured and are also able to conduct research and development in the field of food manufacturing operations.
